YOUR MOVE WILL BE OUR FIRST MOVE

As was every move, till date. And, we'll want it no other way.

No matter what the scorecard says, we believe each move is a first. Because a 'been there, done that' approach doesn't work in our business. This drives our attention to every single aspect. Analysing and foreseeing the move at hand, independent of legacy. Every move fortifies our strengths further. Fuelling our processes to become even more robust.

Our 'First-Move' approach ensures that we fulfill our commitment.
For every move, for each client.

**STORING BELONGINGS
WITH UTMOST CARE**

Whether a stop-gap warehousing requirement, or for a longer duration one, whether single location storage, or for inter-city interim requirements, we provide warehousing facilities across multiple locations in India.

During relocation, when there is a gap in vacating the old premises and availability of the new one, interim warehousing facilities can be explored.

Alternately, when relocating to a new location but you want to relocate without transporting your belongings, your old premises can be vacated and the belongings can be stored in warehouse, so that they are available to you intact when you're back.

MAXPACE VALUE-ADDS

1. Warehouses that are clean, palletized and free from dust, termites and rodents, also, storage in customised cabins available
2. Durable, sturdy and moisture-free packaging
3. Single or multiple wooden lift van (CASE) as per the size of consignment for long-term warehousing
4. To & fro transportation and handling
5. Interim delivery of part consignment on demand as per your requirement
6. Risk, transit & warehousing insurance cover

LUCK MUST BE GREAT, BUT IT IS NOT FOR US.

We are driven by Methodology. It's the left, right and centre of what we do.

In an industry where 'cross the bridge when you get there' approach is the usual norm, we choose to do things differently with MaxPace Methodology. A system rooted in vast insights that Rahil accumulated through two decades of field experience and shaped by deep analytical understanding that Monali gained at top global consulting firms. This unique combination has shaped a robust system that ensures a zero-cancellation track record.

1 WE KNOW

Moves can't be boxed into categories or types. Each one is a standalone journey. Our **Screening Tools** captures all details and variance, so that even the smallest aspect blips on our radar.

2 WE FORESEE

Each detail is then evaluated with our collective understanding to tap out any likely hitches. Our **Anticipate & Provision System** evolves a blueprint, mapping out desired milestones.

3 WE EXECUTE

Stakeholders are briefed individually about their onus at touchpoints. Our **Report-Back System** monitors the move through each milestone and updates the **Tracking Dashboard**.

4 WE MANAGE

From packing the first object from site, to unpacking and placing the last one at the final destination, a stringent zero-tolerance for any digression from the **Move Blueprint** is maintained.

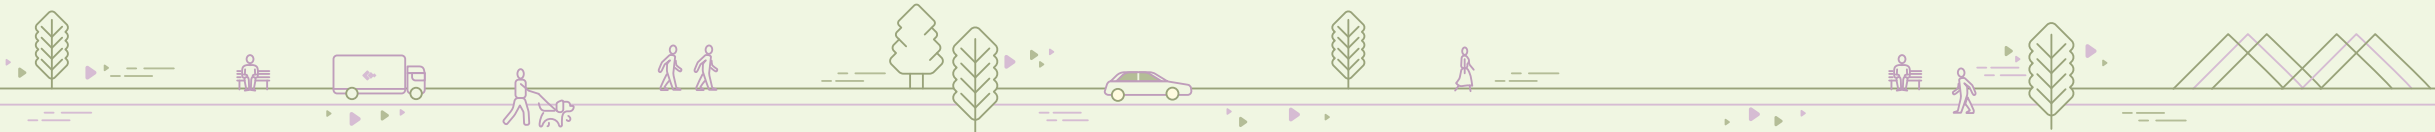

6 WE EVOLVE

Any new learning is processed through our **Insight-Building System** to be analysed and funnelled to refine and adapt our methodology further.

5 WE ANALYSE

The move is audited across technical, operational and customer fulfillment parameters. Our **Audit & Collate System** gathers inputs from our team, customer and client.
